

Naming of Roads and Public Places Policy

Strategic Reference	Objective 3; A prosperous and sustainable district. Strategy 3.7; Maintain a local road network that satisfactorily supports primary production, tourism development and other employment generating opportunities.
File reference	AR20/11407
Responsibility	Director Infrastructure & Assets
Revision Number	7
Effective date	September 2009
Last revised date	July 2020
Minutes reference	160/20, 136/17, 164/14, 097/12, 069/11; 295/09
Next review date	July 2023
Applicable Legislation	Local Government Act 1999, s 219, 220 & 231
Related Policies	Nil
Related Documents	Australian Standard AS 1742.5 – 1997 DPTI 'Guidelines for the Selection of Names for Roads in SA' LGA guidelines 'Model Policy for the Selection of Road and Public Place Names' Standards for Uniform Kerbside Numbers Geographical Names Act 1991

1. Purpose and scope

The purpose of this policy is to ensure that a consistent, open and transparent process is undertaken in relation to the naming of roads and public places throughout the Coorong District Council.

2. Policy statement

Coorong District Council has the power under section 219 of the Local Government Act 1999 to assign a name to, or change the name of:

- a public road;
- a private road; and
- a public place.

Council must assign a name to each public road created by land division. A developer may submit proposed road names to Council for prior approval.

Naming of Roads and Public Places Policy

It is Council's policy that all sealed public roads and all formed public roads within the Council area that are regularly accessed will be assigned a name. This does not include 'unmade' road reserves.

All formed private roads that are accessible to the public (with the following exceptions) will also be assigned a name. Private roads with five or less property addresses do not need to be named. In these cases, address numbers will be assigned off the road that the private road exits on to.

All roads that can be used as part of an address for an address site will be assigned a name.

Note: the naming of State roads is the responsibility of the Department of Planning, Transport and Infrastructure (DPTI).

A road name sign that identifies each public road will, as far as practicable, be placed at every road intersection and will clearly indicate the road to which it applies.

3. Naming roads and public places

3.1 Initiating the naming process

A road naming process may be initiated if:

- a request is received by the Council from an affected land owner or their agent;
- Council resolves that a name change be investigated;
- Council staff determine it is in the public interest to investigate a change in road name or public place;
- Council opens or forms a road; or
- Council receives or approves an application for a land division.

3.2 Requests to change the name of a Road or Public Place

All requests are to be received in writing and accompanied by the relevant (non-refundable) administration fee. The person requesting the change must also confirm in writing that they will pay in full, all costs associated with the implementation of the name change should it proceed. Charges will be applied as per Council's Schedule of Fees and Charges.

The request must also include the reason for the proposed name change and any supporting documentation (whilst considering the guidance provided in this Policy). A location map showing the extent of the road as proposed and a letter of agreement for the change from all residents that will be directly affected by the proposed change.

All requests will be considered on merit and using the standard principles of naming/renaming as set out within this Policy.

3.2 Naming and renaming of Roads and Public Places

In the naming and renaming of public roads the following principles will be observed:

Uniqueness

- A road will have only one name.

Naming of Roads and Public Places Policy

- A road name will be unique within an official suburb rural locality. Duplicate road names within a suburb/locality will not be permitted in order to avoid confusion (e.g. emergency services response).
- Roads that are maintained by the Department for Planning, Transport and Infrastructure (DPTI) will be named by DPTI and is the final decision of DPTI. Council will request consultation with DPTI in relation to naming these roads.
- A road name will be unique within an official suburb or rural locality, these include similar sounding names (e.g. Paice, Payce or Pace Roads).
- Duplication of names in proximity to an adjacent suburb or locality will be avoided. Roads crossing Council boundaries should have a single and unique name.
- Wherever practicable, road names will be continuous from the logical start of the road to the logical end of the road, irrespective of Council boundaries, landforms and intersecting roads.

Name Sources

Road and public place names for the Coorong District Council may be sourced from the list below:

- Geographic names.
- Indigenous names taken from the local indigenous language.
- Local history.
- Eminent persons as recognized and endorsed by the Coorong District Council.
- Early explorers, pioneers and settlers.
- Relating to names from flora, fauna etc.

Names will be selected so as to be appropriate to the physical, historical or cultural character of the area concerned. The origin of each name will be clearly stated and recorded as part of Council's historical records.

The local indigenous community will be consulted when choosing indigenous names or using words from relevant indigenous languages.

Propriety

Names of living persons will be avoided.

Names, which are characterized as follows, will not be used:

Offensive or likely to give offence;
Inappropriate – out of place; or
Commercial or a Company.

Communication

Names will be reasonably easy to read, spell and pronounce in order to assist service providers, emergency services and the travelling public.

Unduly long names and names composed of two or more words will be avoided:

Naming of Roads and Public Places Policy

- A given name will only be included with a family name where it is essential to identify an individual or where it is necessary to avoid ambiguity. The use of given names will be avoided.
- Whilst street and cul-de-sac names will have only one word, it is recognized that some roads require a two word name because of their geographic relationship.
- Roads with double destination names will be avoided. For example Meningie-Tintinara Road.

Spelling

Where the spelling of names has been changed by long established local usage, unless there is a particular request by the local community to retain the original name, the spelling that is sanctioned by general usage will be adopted.

Road names proposed or approved will not contain abbreviations, e.g. the “Creek” in “Kangaroo Creek Road” must not be abbreviated. There are however, two exceptions, “St” will always be used in place of “Saint” and it is acceptable to use “Mt” for “Mount”.

Form

The apostrophe mark ‘ will be omitted in the possessive case, e.g. “Bridge’s Road” will be “Bridges Road”.

Names will avoid the use of the possessive “s” unless the euphony becomes harsh, e.g. “Devils Elbow”.

The use of hyphens will be avoided. However, hyphens may be used when naming a road after a person with a hyphenated name.

Type of Road

- The suffix chosen will be compatible with the class and type of road.
- Assistance to both the motorist and pedestrian is a major consideration in choosing the suffix.
- When a suffix with a geometric or geographic connotation is chosen it will generally reflect the form of the road, e.g. Crescent – a crescent or half moon, re-joining the road from which it starts; Esplanade – open, level and often along the seaside or a river.
- For a cul-de-sac use Place, Close, Court or a suffix of similar connotation.
- Highway (HWY) will be specifically reserved from roads associated with the State arterial road network. Its use will be restricted to roads of strategic importance constructed to a high standard.

The following list of suitable road type suffixes is included as examples (the list has been sourced from Australian Standards AS 1742.5 – 2017 and AS 4212 – 1994. An expanded road type list and acceptable abbreviations can be sourced from AS 4590:2006. In most instances the connotations are clear but where necessary a definition can be checked in a dictionary). Only road types shown in the standards documents will be used.

Naming of Roads and Public Places Policy

Alley	Arcade	Avenue	Boulevard
Bypass	Circle	Circuit	Circus
Close	Court	Crescent	Drive
Grove	Lane	Mews	Parade
Parkway	Place	Plaza	Promenade
Road	Row	Square	Street
Terrace	Walk	Way	PS

No Prefix or Additional Suffix

The use of a compass point prefix/suffix or an additional suffix such as “south” or “extension” will be avoided, particularly where new roads are to be named.

Where an existing road is subsequently bisected as a result of traffic management planning or some other reason, it may necessitate, and be more appropriate to delineate each half of the road by the addition of a compass point suffix for the purposes of assisting the community and the emergency services to locate the appropriate part of the road.

3.3 Naming of private roads

This policy covers all formed roads that are regularly accessed and therefore includes private roads. Private land owners are not obliged to seek Council approval for naming their roads. However, there is a public interest in encouraging private land owners and developers to select suitable names, preferably in accordance with this policy, and to obtain Council endorsement for the name. Where Council proposes to assign a name to a private road, it will consult with the owner of the land over the proposed name and the signage requirements for the road.

3.4 Consultation with adjoining Councils

If a Council decides to change the name of a public road that runs into the area of an adjoining Council, the Council will give the adjoining Council a minimum two months' notice of the proposed change and consider any representations made by the adjoining Council in response to the notice.

3.5 Public notice of name assignment or change

Council will give public notice of the assigning or changing of a road name or public place. This will be by publication in the Government Gazette and by notice in a newspaper circulating generally throughout the State, as required under the Local Government Act 1999. Public notice will include the date that the new name takes effect and notice will also be published on Council's website: www.coorong.sa.gov.au.

Where a road or public place is to be named or renamed:

1. Council will advertise the proposed naming or name-change of the road in the local press, allowing a period of four weeks for written submissions prior to closing of the relevant agenda.
2. Council will then make a determination of name and will notify parties who have made a written submission of the outcome.

Naming of Roads and Public Places Policy

3.6 Advising relevant parties of new name or name change

Council will provide written notice (e.g. by email) of Council's decision on a new road or public place name or name change to all relevant parties, including:

- Applicant;
- Registrar-General;
- Surveyor-General;
- Valuer-General (see s219(3)(a) of the Local Government Act 1999);
- the owner of the road (if a private road);
- owners to abutting properties;
- Australia Post;
- Telstra;
- SA Water;
- SA Power Networks;
- SA Police;
- SA Ambulance Service; and
- SA Metropolitan Fire Service and/or Country Fire Service

3.7 Date of effect for new names or name changes

The date of effect of the new or changed road name or public place will be determined at the time the decision to assign the name so as to allow sufficient time for all stakeholders to make arrangements to ensure a smooth transition.

The date of effect will be determined after considering:

- In respect of renaming an existing road, the impact on existing property owners, residents, tenants and occupiers. For example, the time required to advise relevant parties to change advertising references etc;
- Potential confusion for people using maps and street directories that effectively become out of date; and
- The desire of some developers to sell property 'off the plan' and the opportunity for new owners to know their future address at an early stage.

The anticipated timeframe for the date of effect will be six (6) months from an application, however should unforeseen circumstances arise the timeframe may be longer.

Council will update the Register of Public Roads as required by Section 231 of the Local Government Act 1999.

3.8 Road name signage

Council will ensure road naming signage in accordance with the relevant Australian Standard (AS 1742.5 – 1997) is erected. Signage may be erected during construction of a sub-division.

Naming of Roads and Public Places Policy

All road name signage should include the Council logo.

Note – signage for state road names is the responsibility of DPTI.

4. Road numbering

This section of the policy does not apply to numbers and addresses for the purposes of Rural Property Addressing.

4.1 Numbering of premises

Council's objective is to have every address site within the boundary of the Council area given a number or number range. Such areas include public reserves, schools, buildings, and all other fixtures and locations situated in urban thoroughfares, which are not numbered but which require road addresses to establish their locations.

4.2 Displaying of premises numbers

Council's objective is to have all premises within Coorong District Council, including residences, shops and other buildings, display adequate identifying numbers.

Council has taken into account the need to have premises clearly identified for the efficient delivery of mail and so that emergency services, other service providers and the general public can easily locate premises.

Under Section 220(6) of the Local Government Act 1999 an owner of land must, at the request of Council, ensure that the appropriate number for the owner's building or allotment is displayed in a form directed or approved by the Council.

4.2.1 Residential premises

All premise numbers should be easily identifiable from a stationary vehicle located on the adjacent roadway.

Where properties have no street frontage, numbers must be identifiable from the access road/private laneway adjacent to the property.

For houses such as those in denser areas which are less than 1.5 metres from the front property boundary, the number should be placed in a prominent position to the left hand side or adjacent to the main entrance to the house.

For houses that are more than 1.5 metres from the front boundary, the premise number should be placed on or near the front gate. If the premise has no front fence or gate, the number should be placed on the letterbox or other feature facing the street. Australia Post prefers the premise numbers to be displayed on the letterbox where a letterbox is provided.

Ideally the numbers should be located 750mm to 1.5 metres above the ground level and on the left hand side of the door or gate.

Numbers should be at least 75mm high to ensure they can be seen from the roadway and use colour combinations which provide strong contrast between the number and the background, such as black and white. Visibility is improved by using retro-reflective material for either the number or the background. For numbers placed on letterboxes consider using raised numbers (tactile) to assist the vision impaired.

Naming of Roads and Public Places Policy

4.2.2 Industrial and commercial premises

Premise numbers should be displayed in a prominent position to the left side of the driveway main entrance and/or the façade of the building and in a way that makes it easy for the number to be seen clearly by pedestrians and motorists.

Commercial buildings require the same type of premise numbers as residential premises. Although the minimum required height of number is 75mm, larger numbers are encouraged. Owners should consider displaying numbers which are in scale with the size of the building and which enhance its appearance.

4.3 Kerbside numbering

In addition to the displayed premise numbers, Council may permit Neighbourhood Watch SA groups, or other local groups approved by Council's Director Infrastructure & Assets, to install, at their cost, kerbside numbering on premises within Coorong District Council. All such kerbside numbering must be installed in accordance with Council's Standards for Uniform Kerbside Numbers, and installed in accordance with all traffic management requirements.

5. Further information

This policy will be available for inspection at the Council offices listed below during ordinary business hours and available to be downloaded, free of charge, from Council's website: www.coorong.sa.gov.au.
