Cr. Arthur requested an update on minute item 154/06 Draft Policy Hiring of Council facilities. Cr. Arthur advised that the item states that an update was meant to be presented today, when will this policy be complete? The CEO advised that Starr Solutions are currently reviewing all policies, including this policy, therefore the item is ongoing. The CEO also advised that all hall fees are suggested by the relevant Section 41 committee that meets regarding that particular hall, and it would be hard to have a streamline structure as all the halls have different facilities.

Cr. Klitscher asked for an update regarding minute item 247/10 Long Term Office Accommodation Working Party. The Mayor advised that a meeting of the Working Party has been scheduled for Tuesday the 26th July at Tailem Bend.
Cr. Klitscher asked whether an application for Bus Shelter funding has been put in (minute item 024/11) as applications have opened. The CEO advised the Director Infrastructure and Assets is aware that this funding needs to be applied for and will do so in the appropriate time frame.

QUESTIONS WITH NOTICE

Cr. A Dawes
1. Is something going to be done to the floor of the toilets in Meningie to make it more hygienic? A concrete floor cannot be cleaned properly, how about tiles?

Director Infrastructure & Assets Response
There has been funds allocated in the 2011/12 budget to finish the surface of the Meningie toilet floor. A quotation will be received for several types of applications (concrete polishing, painting & tiling) with a report to Council for consideration. As we are nearing completion of the toilet spalshing issue, I expect to commence the quotation process in the coming months.

Cr. A Dawes
2. Why are the Meningie and Tintinara residents discriminated against by having the council offices closed for lunch? Tailem Bend doesn't close so it's a blatant case of discrimination.

Chief Executive Officers Response
The proposal to close for lunch on a permanent basis at Meningie and Tintinara Offices was instigated by staff through the OHS Committee in late 2010. It was requested that the Leadership Team consider the option of permanent lunch closure to enable staff working in isolation the opportunity to have a prescribed lunch break. The need to close the office to enable staff to have a prescribed lunchbreak has not been identified as an issue at Tailem Bend.

It was also acknowledged at the time that when necessary, staff at Meningie and Tintinara already closed the office in an unofficial capacity to undertake postage, banking and lunch duties. This activity is consistent with that of Bank SA in both towns and appeared not to pose any significant loss of service, given that this had been occurring periodically for sometime then and no adverse comments had been received.
I am also mindful of the resolution by the previous Council that directed that the offices at both Meningie and Tintinara remain open to provide customer service to the residents of those towns. In the end, I endeavoured to strike a balance that respects the Council resolution and addresses, in part, the responsibility that Council has to its staff.

Consultation on this matter with the staff commenced in December 2010 and at the close of the consultation period, only favourable comments were received. Further, a recent satisfaction survey conducted by staff about that time revealed further requests for this to occur. Since that time, I am advised that staff have generally appreciated and embraced the concept.

The formal advice, containing the above information to explain the reasoning and need for the closure, was forwarded to elected members on 8 March 2011 (to enable them to explain the matter to any ratepayer who enquired), staff on 9 March 2011, and was advertised in the local papers soon after that date.

Cr. A Dawes
3. Regarding the recent letter regarding change of rural property addresses: Is the council erecting signs for us or do we have to put up signs ourselves?? Most people I have spoken to are like me, haven't got much idea about the whole process, maybe an article in the Lakelander would help us understand what's going on.

Director Infrastructure & Assets Response
Council have sent out two letters advising affected residents of the changes to Rural Property Addressing. There are approximately 1500 properties to receive the new address with only a few queries being made direct to Council. All queries are referred to Sue Prendergast who has been able to assist the resident. Works have commenced with the installation of the signs and are fully funded by Council. Any replacement of the signs will be at the cost of the property owner.

Cr. J Arthur
1. Community Liaison Officer;
   The adoption by Council of the recommendations from the Community Needs Analysis earlier this year highlighted that different elected members have different opinions concerning the issues that need to be addressed as a matter of priority when the CLO position is appointed. We also need to make sure that the services that are provided to the community are not duplicated by different service providers, but are more coordinated.
   Can a workshop be held with the elected members and relevant staff after the CLO is appointed so that these matters can be discussed?

Director Sustainable Development
Yes, it is possible to hold a workshop with elected members, the new CLO and other relevant staff regarding the role and priorities of the CLO once the role has commenced. It would be recommended that if such a workshop was held that it occur several weeks after the CLO has commenced. This will ensure the CLO has had time to assess the Community Needs Analysis in order to consider the Council's priorities as per its resolutions and to also consider any other priorities that the incumbent may identify during the first few weeks of establishing this new role.
It should be noted that by endorsing the Community Needs Analysis, and therefore the recommendations contained within it, Council has adopted the priorities and key responsibilities of the new CLO role. This has been reflected in the JPS for the CLO role. Furthermore, a key aim of the Community Needs Analysis process was to consult with all relevant service providers, and the community, to determine the areas of need in the community and to ensure if Council allocated additional resources to community services, that this would not duplicate existing services.

**QUESTIONS WITHOUT NOTICE**

Cr. Dawes advised that he was approached by rate payer who was concerned over dump vouchers for rural properties and the changes that have been made for the first 6 months of the 2011/12 financial year and the review that is taking place. The CEO advised a review of all waste management operations is taking place and this is the cause of the issue of 6 monthly voucher. Rate payers will receive another voucher at the end of the first six months to complete their yearly cycle of vouchers subject to the outcome of the review.

**MAYORS REPORT**

*The Mayor elaborated on his written report.*

Cr. Arthur asked what the Mayor & CEO are intending to do regarding Richardson Road now that various Ministers are taking an interest? There is also a possibility for a further meeting with Greg Hunt and various Ministers regarding this issue.
